EDUCATION

Virginia Tech, Pamplin College of Business, Blacksburg, VA **Jan. 2026 - May 2028**
Bachelor of Science in Business, Business Information Technology - Cybersecurity Management and Analytics
GPA: 3.5/4.0, Dean's List(Spring 2026) | **Relevant Coursework:** Cybersecurity Foundations, Statistical Analytics, Linux

George Mason University, Volgenau School of Engineering, Fairfax, VA **Aug. 2024 - Dec. 2025**
Bachelor of Science, Cybersecurity Engineering
GPA: 3.6/4.0, Dean's List(Fall 2024/2025) | **Relevant Coursework:** Cybersecurity Engineering, Computing for Digital Systems Engineering, Python, Java

SKILLS

- **Technical:** Wazuh SIEM, Windows Event Logs, Active Directory, DNS, CIS Benchmarks, Linux, Ubuntu, Windows Server, Kali Linux, VirtualBox, PowerShell
- **Programming and Tools:** Python, Java, JavaScript, HTML, CSS, React, Git, GitHub, Wireshark, Nmap, Scapy
- **Languages:** Fluent in English, Korean, Spanish

PROJECTS

Wazuh SIEM and Endpoint Security Monitoring Home Lab
- Deployed Wazuh on Ubuntu Server to centralize Windows 10 security logs and monitor endpoint activity, investigated privileged logon events(Windows Event ID 4672).
- Identified and remediated a failed CIS security configuration check using Wazuh Security Configuration Assessment; verified its status changed from failed to passed.

Active Directory Home Lab
- Built a 2 computer virtual network using VirtualBox, Windows Server, and a Windows 10 workstation to simulate a real business IT environment.
- Used Active Directory to create and manage user accounts, security groups, and computer access through a centralized Windows domain.
- Configured DNS and network settings to connect the workstation to the server and successfully tested domain login and authentication.

System and Network Security Monitoring Tool
- Created a Python based security monitoring tool that analyzes system logs for suspicious activity, monitors CPU and memory usage with 1 second sampling for quick detection and notifies alerts.
- Integrated Nmap and Scapy to scan network activity and analyze TCP/IP packets, identifying source and destination IPs; automated email alerts for 5+ suspicious login attempts or CPU usage above 90%.

Campus Password Strength Checker
- Developed an interactive password-strength checker website using HTML, CSS, and JavaScript.
- Evaluates password strength based on length, character variety, and common security weaknesses while providing real-time feedback.
- Designed the tool to run entirely client-side so entered passwords are not transmitted to or stored on a server.

WORK EXPERIENCE

Wegman's *Fairfax, VA(Seasonal)* **Jul. 2025 - Present**
Stocking Associate
- Managed custom inventory counting programs to ensure smooth operations
- Provided excellent customer service by locating products to ensure customer satisfaction

Hasang Korean School *Fairfax, VA* **Jun. 2022 - Jul. 2023**
Teacher's Assistant
- Assisted in teaching over 300 students, ranging in age from Pre-K to high school.
- Managed student attendance counts and event setups utilizing programs such as Excel, Word, Powerpoint, and Zoom.

Virginia Delegate Irene Shin *Centreville, VA* **Oct. 2021 - Dec. 2021**
Campaign Assistant
- Volunteered as an assistant to Irene Shin's campaign for Virginia Delegate, aiding her in being elected in 2022.
- Promoted the campaign through creating an Excel call sheet in order to record possible supporters and donors
